Water Penetration		7.5 psf
Uniform Loads		+/- 75.0 psf

TOUGH COLORS AND FINISHES THAT ENHANCE YOUR HOME'S BEAUTY

We understand that it's also important for a window frame, even if it's the most energy-efficient available, to look attractive and add style to your home.

Standard interior and exterior colors are White, Almond or Clay offering smooth clean lines to your home's design.

White

Almond

Clay

- The classic beveled frame styling increases both beauty and durability.
- Multi-chambered frame design provides excellent energy efficiency.
- "Colonial" window grids fit between the layers of glass so no cleaning is needed (optional).
- 3/4" OA Cardinal Low E 366 glass provides superior thermal and sound insulation.
- Dura-Seal spacer utilizes warm edge technology for increased energy savings in our glass units.
- Multi-chambered, aluminum-reinforced center bar for extra strength.
- Tilt-in lower sash for ease of cleaning.
- New construction nailing fin for easy installation in new or room additions (optional)
- Heavy duty stainless steel balance system allows the sash to remain open in any position.

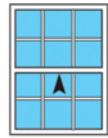

Not only does AWS have multiple window style options for homeowners, but we also have multiple window shapes to fit your needs. You can choose the color of windows and the grid patterns to fit your personal style preferences.
